

## Plant Information

Common Name: Aster  
Scientific Name: Aster spp.  
Plant Type: Perennials

## Physical Characteristics

Height/Spread: 30-100 cm in height, 30-60 cm in spread  
Growth Rate: Moderate  
Flower Color(s): Purple, pink, white, blue  
Foliage Color(s): Green  
Bloom Time: Late summer to fall

## Plant Description

Aster is a versatile perennial plant that adds pops of color to late-season gardens. With its daisy-like flowers in shades of purple, pink, white, and blue, Asters attract butterflies and other pollinators. They are easy to care for, requiring only moderate watering and full sun to part shade. Asters are perfect for borders, rock gardens, or as cut flowers. Plant them alongside Black-Eyed Susans, Coreopsis, and Sedum for a beautiful and vibrant garden display.

## Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-drained, loamy soil

Water: Moderate Watering

Hardiness Zone(s): Zones 3-8

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Powdery mildew, aphids, slugs

## Additional Information

Special Features: Drought-tolerant, attracts butterflies  
Common Uses: Borders, rock gardens, cut flowers
