

## Plant Information

Common Name: Black-eyed Susan vine

Scientific Name: *Thunbergia alata*

Plant Type: Annuals

## Physical Characteristics

Height/Spread: 2-3 meters height, 1-1.5 meters spread

Growth Rate: Fast

Flower Color(s): Yellow, orange, white

Foliage Color(s): Green

Bloom Time: Summer, Fall

## Plant Description

*Thunbergia alata*, commonly known as the Black-eyed Susan vine, is a fast-growing annual plant with eye-catching yellow, orange, or white flowers. This vine is perfect for adding vertical interest to gardens, as it climbs up trellises or fences with ease. Its drought-tolerant nature and ability to attract butterflies and hummingbirds make it a popular choice for summer and fall landscapes. With low maintenance requirements, *Thunbergia alata* is a fantastic addition to any garden looking to add a splash of color and charm. Plant alongside morning glories, petunias, or nasturtiums for a stunning display.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 8-10

## Maintenance & Care

Maintenance Level: Low

Potential Pests & Diseases: Aphids, whiteflies, root rot

## Additional Information

Special Features: Attracts butterflies, hummingbirds; drought-tolerant

Common Uses: Climbing vine, container plant, trellis or fence cover
