

Plant Information

Common Name: Black-eyed Susan
Scientific Name: *Rudbeckia fulgida* 'Goldquelle'
Plant Type: Perennial

Physical Characteristics

Height/Spread: 60-90 cm in height, 45-60 cm in spread
Growth Rate: Moderate
Flower Color(s): Yellow with dark brown centers
Foliage Color(s): Green
Bloom Time: Summer to early fall

Plant Description

Rudbeckia fulgida 'Goldquelle', commonly known as Black-eyed Susan, is a striking perennial with bright yellow daisy-like flowers and dark brown centers that bloom from summer to early fall. This low-maintenance plant thrives in full sun and moderate watering, making it a popular choice for borders, containers, and cut flower arrangements. With its attractive appearance and ability to attract butterflies while being resistant to deer, *Rudbeckia fulgida* 'Goldquelle' is a versatile addition to any garden or landscape. Pair it with companions like Echinacea, Salvia, or Ornamental Grasses for a stunning display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zones 3-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Powdery mildew, leaf spot

Additional Information

Special Features: Attracts butterflies, deer resistant
Common Uses: Borders, containers, cut flowers
