

## Plant Information

Common Name: Heliotrope  
Scientific Name: *Heliotropium arborescens*  
Plant Type: Annuals

## Physical Characteristics

Height/Spread: 0.5-1 meters tall, 0.3-0.6 meters wide  
Growth Rate: Moderate  
Flower Color(s): Purple, Lavender, White  
Foliage Color(s): Green  
Bloom Time: Summer, Fall

## Plant Description

Heliotrope, also known as cherry pie plant, is a charming annual plant that produces clusters of small, fragrant flowers in shades of purple, lavender, or white. Its lush green foliage adds a touch of beauty to any garden. This plant thrives in full sun and moderate watering, making it easy to care for. Heliotrope is beloved for its sweet scent, which attracts butterflies and other pollinators. It is perfect for adding color to containers or borders in the summer and fall months. Pair it with marigolds, petunias, or verbena for a stunning display in your garden.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 5-8

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Aphids, spider mites

## Additional Information

Special Features: Fragrant flowers, attracts butterflies  
Common Uses: Container plant, border plant
