

## Plant Information

Common Name: Lavatera  
Scientific Name: Lavatera sp.  
Plant Type: Perennials

## Physical Characteristics

Height/Spread: 1-2 meters in height, 0.5-1 meter in spread  
Growth Rate: Moderate  
Flower Color(s): Pink, Purple, White  
Foliage Color(s): Green  
Bloom Time: Summer

## Plant Description

Lavatera is a beautiful perennial plant that adds a pop of color to gardens in the summer. Its pink, purple, or white flowers attract pollinators and its drought-tolerant nature makes it a low-maintenance choice for gardeners. With its moderate growth rate, Lavatera can reach heights of 1-2 meters, making it ideal for borders or containers. This plant thrives in full sun and well-draining soil, and is suitable for hardiness zones 3-9 in Canada. Keep an eye out for pests like aphids and spider mites, as well as powdery mildew. Overall, Lavatera is a lovely addition to any garden or landscape.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, Loamy soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Aphids, spider mites, powdery mildew

## Additional Information

Special Features: Drought-tolerant, attracts pollinators  
Common Uses: Border plant, container plant
