

Plant Information

Common Name: Lobelia
Scientific Name: Lobelia erinus
Plant Type: Annuals

Physical Characteristics

Height/Spread: 0.1-0.3 meters in height, 0.3-0.6 meters in spread
Growth Rate: Moderate
Flower Color(s): Blue, Purple, White, Pink
Foliage Color(s): Green
Bloom Time: Spring, Summer, Fall

Plant Description

Lobelia is a versatile annual plant that produces a profusion of colorful flowers in shades of blue, purple, white, and pink. It is an excellent choice for adding a pop of color to borders, containers, or hanging baskets. With its moderate growth rate and low maintenance requirements, Lobelia is a popular choice for gardeners looking to attract pollinators like hummingbirds and butterflies. Its ability to thrive in full sun to part shade makes it a versatile option for various landscaping situations. Pair Lobelia with companion plants like petunias, alyssum, or verbena for a stunning display in your garden.

Optimal Growing Requirements

Sun: Full Sun, Part Shade

Soil: Well-draining soil

Water: Moderate watering

Hardiness Zone(s): Zones 3-5

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Slugs, snails, aphids

Additional Information

Special Features: Attracts hummingbirds and butterflies
Common Uses: Borders, containers, hanging baskets

Notes
