

## Plant Information

Common Name: Melampodium  
Scientific Name: Melampodium paludosum  
Plant Type: Annuals

## Physical Characteristics

Height/Spread: 20-30 cm height, 30-40 cm spread  
Growth Rate: Moderate  
Flower Color(s): Yellow  
Foliage Color(s): Green  
Bloom Time: Summer, Fall

## Plant Description

Melampodium is a charming annual plant that produces bright yellow flowers from summer to fall. With its compact size and low maintenance needs, it is perfect for borders, containers, or mass plantings in gardens. This plant is drought-tolerant and attracts pollinators, adding life and color to any outdoor space. Melampodium thrives in full sun and well-draining soil, making it an excellent choice for beginner gardeners or those looking for easy-to-care-for plants. Pair it with marigolds, petunias, or verbena for a stunning display of color in your garden.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Can be prone to powdery mildew

## Additional Information

Special Features: Drought-tolerant, attracts pollinators  
Common Uses: Ideal for borders, containers, and mass plantings
