

Plant Information

Common Name: Nicotiana
Scientific Name: Nicotiana spp.
Plant Type: Annuals

Physical Characteristics

Height/Spread: 30-120 cm in height, 30-60 cm in spread
Growth Rate: Fast
Flower Color(s): White, pink, red, yellow, purple
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Nicotiana, commonly known as flowering tobacco, is a fast-growing annual plant that produces an abundance of colorful and fragrant flowers throughout the summer. With its elegant blooms and attractive foliage, Nicotiana is a popular choice for borders, containers, and attracting pollinators to the garden. This low-maintenance plant thrives in full sun to part shade and moderate watering, making it suitable for a variety of garden settings. Nicotiana's fragrant flowers not only add beauty to the landscape but also attract pollinators like hummingbirds and butterflies. Consider planting Nicotiana alongside companion plants like petunias and marigolds for a stunning display in your garden.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 2-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, whiteflies, tobacco mosaic virus

Additional Information

Special Features: Fragrant flowers, attracts hummingbirds and butterflies
Common Uses: Border plant, container plant, attracting pollinators
