

Plant Information

Common Name: Petunia
Scientific Name: *Petunia x hybrida*
Plant Type: Annuals

Physical Characteristics

Height/Spread: 15-30 cm tall and 30-60 cm wide
Growth Rate: Moderate
Flower Color(s): Various colors including pink, purple, white, and red
Foliage Color(s): Green
Bloom Time: Spring to Fall

Plant Description

Petunias are popular flowering plants known for their colorful blooms and versatility in gardens and landscapes. They are easy to grow, requiring minimal maintenance and providing long-lasting flowers from spring to fall. With their vibrant shades and attractive trumpet-shaped flowers, petunias add a splash of color to any outdoor space. These annuals thrive in full sun and well-drained soil, making them ideal for hanging baskets, containers, or border plantings. Additionally, petunias are drought-tolerant and can attract beneficial pollinators like butterflies and hummingbirds. Consider planting them with companions like lobelia, verbena, or marigolds for a stunning display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-10

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, caterpillars, grey mold

Additional Information

Special Features: Drought-tolerant, attracts butterflies and hummingbirds
Common Uses: Hanging baskets, containers, borders
