

## Plant Information

Common Name: Wishbone flower

Scientific Name: Torenia

Plant Type: Annuals

## Physical Characteristics

Height/Spread: 15-30 cm tall, 15-30 cm wide

Growth Rate: Moderate

Flower Color(s): Blue, purple, pink, white

Foliage Color(s): Green

Bloom Time: Summer, Fall

## Plant Description

Torenia, commonly known as wishbone flower, is a stunning annual plant that features vibrant blue, purple, pink, or white flowers. With its compact size and cascading growth habit, it is perfect for hanging baskets, containers, and border plantings. Torenia thrives in partially shaded areas and requires moderate watering. This low-maintenance plant attracts pollinators like hummingbirds, butterflies, and bees, adding beauty and life to any garden. Pair Torenia with other shade-loving plants like impatiens, lobelia, or begonia for a colorful and diverse landscape.

## Optimal Growing Requirements

Sun: Part Shade

Water: Moderate Watering

Soil: Well-drained, rich soil

Hardiness Zone(s): Zone 8-10

## Maintenance & Care

Maintenance Level: Low

Potential Pests & Diseases: Susceptible to aphids, powdery mildew

## Additional Information

Special Features: Attracts hummingbirds, butterflies, and bees

Common Uses: Ideal for hanging baskets, containers, and borders
