

## Plant Information

Common Name: Ajuga Black Scallop  
Scientific Name: *Ajuga reptans* 'Black Scallop'  
Plant Type: Perennial

## Physical Characteristics

Height/Spread: 0.1-0.2 meters in height, spreading up to 0.3 meters  
Growth Rate: Moderate  
Flower Color(s): Blue  
Foliage Color(s): Dark purple-black  
Bloom Time: Late Spring to Early Summer

## Plant Description

Ajuga Black Scallop is a stunning perennial plant with dark purple-black leaves and blue flowers that bloom in late spring to early summer. This low-maintenance plant is perfect for adding color and texture to shady areas in the garden. Its spreading nature makes it an excellent ground cover, while its deer-resistant qualities make it perfect for edging and borders. Ajuga Black Scallop is easy to grow and pairs well with hostas, ferns, and Heuchera in landscaping designs. With its unique foliage and vibrant blooms, this plant is sure to add interest to any garden setting.

## Optimal Growing Requirements

Sun: Part Shade to Full Shade

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Generally pest and disease resistant

## Additional Information

Special Features: Deer-resistant, ground cover  
Common Uses: Ground cover, edging plant
