

## Plant Information

Common Name: Alyssum Gold Kobold  
Scientific Name: Alyssum montanum 'Gold Kobold'  
Plant Type: Perennials

## Physical Characteristics

Height/Spread: 30-45 cm in height, 20-30 cm spread  
Growth Rate: Moderate  
Flower Color(s): Yellow  
Foliage Color(s): Green  
Bloom Time: Spring to Summer

## Plant Description

Alyssum Gold Kobold is a lovely perennial plant with bright yellow flowers that bloom in spring to summer. Its green foliage adds a nice contrast, and its moderate growth rate makes it a great addition to borders, rock gardens, or containers. This plant is easy to care for, requiring only low watering and full sun. Its drought-tolerant nature and ability to attract pollinators make it a valuable asset in any garden. Pair Alyssum Gold Kobold with companions like Phlox, Salvia, or Echinacea for a beautiful and vibrant landscape.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, fertile soil

Water: Low Watering

Hardiness Zone(s): 4-7

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Not prone to major pests or diseases

## Additional Information

Special Features: Drought-tolerant, attracts pollinators  
Common Uses: Borders, rock gardens, containers
