

Plant Information

Common Name: Amur River Privet
Scientific Name: *Ligustrum maackii*
Plant Type: Shrub

Physical Characteristics

Height/Spread: 3-6 meters tall, 2-4 meters wide
Growth Rate: Fast
Flower Color(s): White
Foliage Color(s): Dark green
Bloom Time: Late spring to early summer

Plant Description

Amur River Privet, also known as *Ligustrum maackii*, is a fast-growing shrub with white flowers blooming in late spring to early summer. Its dark green foliage, urban pollution tolerance, and wildlife-friendly attributes make it a popular choice for hedges and privacy screens. This low-maintenance plant thrives in full sun to part shade and well-drained, fertile soil. Amur River Privet is best suited for hardiness zones 3-6 and can be accompanied by companion plants like Japanese maple, Russian sage, and butterfly bush in landscaping or gardening projects.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-drained, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-6

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to aphids and scale insects

Additional Information

Special Features: Tolerant of urban pollution, wildlife-friendly
Common Uses: Hedge plant, privacy screen, specimen plant

Notes
