

Plant Information

Common Name: Azalea
Scientific Name: Rhododendron 'Rosy Lights'
Plant Type: Shrubs

Physical Characteristics

Height/Spread: 1-2 meters tall and wide
Growth Rate: Moderate
Flower Color(s): Rosy-pink
Foliage Color(s): Green
Bloom Time: Spring

Plant Description

Azalea Rosy Lights, also known as Rhododendron 'Rosy Lights', is a beautiful shrub that features clusters of rosy-pink flowers in the spring. Its green foliage adds a lovely contrast to the colorful blooms. This moderate-growing plant thrives in part shade and requires moderate watering. Azalea Rosy Lights is perfect for border plantings and woodland gardens, where it can attract pollinators with its fragrant flowers. With low maintenance needs and the ability to tolerate acidic soil, this azalea is a versatile and eye-catching addition to any landscape. Pair it with hostas, ferns, or hydrangeas for a stunning display in your garden.

Optimal Growing Requirements

Sun: Part Shade

Soil: Well-draining, acidic soil

Water: Moderate Watering

Hardiness Zone(s): Zones 4-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, lace bugs, powdery mildew

Additional Information

Special Features: Attracts pollinators
