

Plant Information

Common Name: Bi-color Monkshood
Scientific Name: Aconitum c Bi-color
Plant Type: Perennials

Physical Characteristics

Height/Spread: 1-1.5 meters in height, 0.5-0.8 meters in spread
Growth Rate: Moderate
Flower Color(s): White and purple
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Aconitum c Bi-color, commonly known as Bi-color Monkshood, is a striking perennial plant that adds beauty to any garden. Its white and purple flowers bloom in the summer, attracting pollinators while being deer resistant. This low-maintenance plant thrives in part shade and moderate watering conditions, making it perfect for borders or woodland gardens. With its moderate growth rate and green foliage, Aconitum c Bi-color is a great addition to any landscape, especially when paired with companions like Astilbe, Hosta, and Ferns. Enjoy the unique beauty and benefits of this lovely plant in your outdoor space.

Optimal Growing Requirements

Sun: Part Shade

Soil: Well-draining, loamy soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-5

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Generally pest and disease resistant

Additional Information

Special Features: Attracts pollinators, deer resistant
Common Uses: Borders, woodland gardens
