

## Plant Information

Common Name: Black Knight Larkspur  
Scientific Name: Delphinium 'Pacific Pearl Black Knight'  
Plant Type: Perennials

## Physical Characteristics

Height/Spread: 1-1.5 meters tall, 0.5 meters wide  
Growth Rate: Moderate  
Flower Color(s): Deep purple-black  
Foliage Color(s): Green  
Bloom Time: Summer

## Plant Description

Delphinium PG Black Knight, also known as Black Knight Larkspur, is a stunning perennial plant with deep purple-black flowers that bloom in the summer. It thrives in full sun with moderate watering and well-draining soil. This larkspur attracts butterflies while being resistant to deer. With a moderate growth rate and a height of 1-1.5 meters, it is perfect for borders, cottage gardens, and cut flower arrangements. Plant alongside Shasta daisies, coreopsis, or salvias for a beautiful garden display. Keep an eye out for aphids, slugs, and powdery mildew as potential pests or diseases.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining soil

Water: Moderate Watering

Hardiness Zone(s): Zones 3-8

## Maintenance & Care

Maintenance Level: Moderate  
Potential Pests & Diseases: Aphids, slugs, powdery mildew

## Additional Information

Special Features: Attracts butterflies, deer-resistant  
Common Uses: Borders, cut flowers, cottage gardens
