

Plant Information

Common Name: Blaze Climber
Scientific Name: *Tropaeolum majus* 'Blaze Climber'
Plant Type: Annual

Physical Characteristics

Height/Spread: 2 meters tall and 30 centimeters wide
Growth Rate: Fast
Flower Color(s): Bright orange
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Blaze Climber is a fast-growing annual plant that produces stunning bright orange flowers in the summer. This climbing plant is perfect for adding a pop of color to your garden and attracting pollinators. With its low maintenance requirements and ability to thrive in full sun, Blaze Climber is a great choice for trellises or fences. Keep an eye out for aphids and slugs, common pests that may affect this plant. Pair it with marigolds or dahlias for a vibrant and beautiful garden display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-5

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, slugs

Additional Information

Special Features: Attracts pollinators
Common Uses: Climbing plant, excellent for trellises or fences
