

Plant Information

Common Name: Blue Ice Lily of the Nile
Scientific Name: Agapanthus Andromedia p Blue Ice
Plant Type: Perennials

Physical Characteristics

Height/Spread: 0.5 meters tall, spread of 0.3 meters
Growth Rate: Moderate
Flower Color(s): Blue
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Andromedia p Blue Ice, commonly known as Blue Ice Lily of the Nile, is a stunning perennial plant known for its beautiful blue flowers and compact growth habit. This plant thrives in well-drained, loamy soil and requires moderate watering. With a moderate growth rate and low maintenance needs, it is a popular choice for garden borders and containers. Its drought-tolerant nature and long-lasting blooms make it a standout addition to any garden. In Canadian climates, it is best suited for Zones 7-9, where it will thrive in full sun to part shade conditions. Pair it with lavender or rosemary for a visually appealing garden display.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Water: Moderate Watering

Soil: Well-drained, loamy soil

Hardiness Zone(s): Zone 7-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, snails, slugs; root rot, powdery mildew

Additional Information

Special Features: Drought-tolerant, long-lasting blooms
Common Uses: Border plant, container plant
