

## Plant Information

Common Name: Blue Spruce 'The Blues'  
Scientific Name: Picea pungens 'The Blues'  
Plant Type: Tree

## Physical Characteristics

Height/Spread: 15 meters tall and 6 meters wide  
Growth Rate: Slow  
Flower Color(s): Non-flowering  
Foliage Color(s): Blue-green  
Bloom Time: Non-flowering

## Plant Description

Picea p Blue Glauca 'The Blues' is a stunning tree with blue-green foliage that adds color and texture to any landscape. With its slow growth rate and low maintenance needs, it is a popular choice for gardens and yards across Canada. This drought-tolerant tree is perfect for adding a pop of color and interest to your outdoor space. Its deer-resistant qualities make it a great option for those looking to protect their plants from wildlife. Plant 'The Blues' alongside companion plants like White Pine or Juniper for a beautiful and cohesive garden design.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, acidic soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zones 2-6

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Susceptible to spider mites and spruce needle rust

## Additional Information

Special Features: Drought-tolerant, deer-resistant  
Common Uses: Ornamental tree, hedge, windbreak
