

Plant Information

Common Name: Blue Glitter Sea Holly
Scientific Name: Eryngium planum Blue Glitter
Plant Type: Perennial

Physical Characteristics

Height/Spread: 60-90 cm tall, 30-45 cm wide
Growth Rate: Moderate
Flower Color(s): Steel blue
Foliage Color(s): Green, silver
Bloom Time: Summer

Plant Description

Eryngium planum Blue Glitter, commonly known as Blue Glitter Sea Holly, is a striking perennial with steel blue flowers that bloom in the summer. This plant thrives in full sun and well-draining soil, making it a low-maintenance addition to any garden. Its unique foliage of green and silver adds visual interest, while its drought tolerance and ability to attract pollinators make it a beneficial plant to have. Blue Glitter Sea Holly is perfect for borders, cut flower arrangements, or dried flower projects and pairs well with companions like lavender, Russian sage, and coneflowers.

Optimal Growing Requirements

Sun: Full sun

Soil: Well-draining sandy or loamy soil

Water: Low to moderate watering

Hardiness Zone(s): Zone 4-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Generally resistant to pests and diseases

Additional Information

Special Features: Drought tolerant, attracts pollinators
Common Uses: Border plant, cut flower, dried flower

Notes
