Plant Description

Eryngium a Blue Star, also known as Blue Sea Holly, is a stunning perennial plant with unique blue flowers and silver-green foliage. This easy-to-care-for plant is drought-tolerant and attracts pollinators to the garden. Perfect for borders or as a cut or dried flower, Blue Sea Holly adds a touch of color and texture to any landscape. Pair it with companions like lavender, Russian sage, or black-eyed Susan for a beautiful and complementary garden design. With its low maintenance requirements and deer-resistant properties, Eryngium a Blue Star is a must-have for Canadian gardens.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, sandy soil

Water: Low to Moderate Watering
