

Plant Information

Common Name: Blue Star
Scientific Name: Amsonia t Storm Cloud
Plant Type: Perennial

Physical Characteristics

Height/Spread: 60-90 cm in height, 60-75 cm in spread
Growth Rate: Moderate
Flower Color(s): Blue
Foliage Color(s): Green
Bloom Time: Late Spring to Early Summer

Plant Description

Amsonia t Storm Cloud, commonly known as Blue Star, is a stunning perennial plant known for its beautiful blue flowers and green foliage. It thrives in well-drained, loamy soil and prefers full sun to part shade. This low-maintenance plant is drought-tolerant and deer resistant, making it ideal for busy gardeners. In late spring to early summer, the blue flowers bloom, attracting pollinators to the garden. With a moderate growth rate and a height of 60-90 cm, Amsonia t Storm Cloud is a perfect border plant that can be paired with Coneflowers and Black-Eyed Susans for a lovely garden display.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-drained, loamy soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zone 5-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Generally pest and disease resistant

Additional Information

Special Features: Drought-tolerant, deer resistant
Common Uses: Border plant, pollinator attractor
