

## Plant Information

Common Name: Cabbage  
Scientific Name: Brassica oleracea  
Plant Type: Biennial

## Physical Characteristics

Height/Spread: 0.3-0.6 meters  
Growth Rate: Moderate  
Flower Color(s): Yellow  
Foliage Color(s): Green  
Bloom Time: Spring

## Plant Description

Cabbage is a versatile biennial plant that is commonly grown for its nutritious leaves. It thrives in cool climates and can withstand frost, making it an ideal choice for Canadian gardens. With its moderate growth rate and low maintenance requirements, cabbage is an easy-to-grow vegetable that can be used in various culinary dishes. Its green foliage and yellow flowers add visual interest to the garden, while its ability to repel pests like cabbage worms and aphids makes it a valuable addition to any vegetable patch. Enjoy fresh, homegrown cabbage all season long by planting this hardy and resilient plant in your garden.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Loamy

Water: Moderate Watering

Hardiness Zone(s): Zone 2-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Cabbage worms, aphids, clubroot

## Additional Information

Special Features: Cold-hardy, edible leaves  
Common Uses: Edible crop, ornamental in vegetable gardens
