

## Plant Information

Common Name: Carpet Yellow  
Scientific Name: Alyssum saxatile 'Carpet Yellow'  
Plant Type: Perennial

## Physical Characteristics

Height/Spread: 15-30 cm height, 30-45 cm spread  
Growth Rate: Moderate  
Flower Color(s): Yellow  
Foliage Color(s): Green  
Bloom Time: Spring, Summer

## Plant Description

Carpet Yellow, scientifically known as Alyssum saxatile 'Carpet Yellow', is a lovely perennial plant with a moderate growth rate, reaching a height of 15-30 cm and spreading out 30-45 cm. Its bright yellow flowers bloom in the spring and summer, contrasting beautifully with its green foliage. Thriving in full sun with low to moderate water needs, this plant is easy to maintain and is drought-tolerant. Carpet Yellow is an ideal choice for ground cover, rock gardens, or borders, and its fragrant flowers attract pollinators. Pair it with tulips, pansies, or daffodils for a stunning display in your garden.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, sandy soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zones 3-8

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Aphids, slugs

## Additional Information

Special Features: Drought-tolerant, fragrant flowers  
Common Uses: Ground cover, rock gardens, borders
