

Plant Information

Common Name: Coneflower
Scientific Name: Echinacea Pretty Parasol
Plant Type: Perennials

Physical Characteristics

Height/Spread: 60 cm tall, 45 cm spread
Growth Rate: Moderate
Flower Color(s): Pink
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Echinacea Pretty Parasol, also known as Coneflower, is a beautiful perennial plant with pink flowers that bloom in the summer. This low-maintenance plant thrives in full sun and well-drained soil, attracting butterflies and bees to the garden. With a moderate growth rate and a height of 60 cm, it is an ideal choice for borders and containers. Echinacea Pretty Parasol is hardy in zones 3-8 and adds a pop of color to any landscape with its vibrant blooms. Pair it with companions like Black-eyed Susan and Russian sage for a stunning display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, loamy soil

Water: Moderate Watering

Hardiness Zone(s): Zones 3-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to aphids and powdery mildew

Additional Information

Special Features: Attracts butterflies and bees
Common Uses: Borders, containers

Notes
