

Plant Information

Common Name: Coreopsis Uptick Red
Scientific Name: Coreopsis lanceolata 'Uptick Red'
Plant Type: Perennial

Physical Characteristics

Height/Spread: 30-40 cm tall, 30-40 cm wide
Growth Rate: Moderate
Flower Color(s): Red
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Coreopsis Uptick Red is a stunning perennial with bright red flowers that bloom in the summer. This low-maintenance plant is perfect for borders, containers, or adding color to pollinator gardens. Its drought-tolerant nature and ability to attract pollinators make it a valuable addition to any landscape. With its moderate growth rate and green foliage, Coreopsis Uptick Red is a beautiful and versatile plant that can thrive in full sun and well-draining soil. Consider planting it with companions such as Salvia, Echinacea, or Lavender for a vibrant and eye-catching display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, fertile soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zones 3-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Generally resistant to pests and diseases

Additional Information

Special Features: Attracts pollinators, drought-tolerant
Common Uses: Borders, containers, pollinator gardens
