

### Plant Information

Common Name: Crimson Pointe Flowering Cherry  
Scientific Name: Prunus c Crimson Pointe  
Plant Type: Tree

### Physical Characteristics

Height/Spread: 6 meters tall and 3 meters wide  
Growth Rate: Moderate  
Flower Color(s): Pink  
Foliage Color(s): Green  
Bloom Time: Spring

### Plant Description

Prunus c Crimson Pointe is a beautiful ornamental tree that showcases stunning pink flowers in spring. Its moderate growth rate and low maintenance make it a popular choice for gardens and landscapes. This tree thrives in full sun and well-draining soil, adding a touch of elegance with its green foliage. While susceptible to pests like aphids and diseases such as cherry leaf spot, proper care can help maintain its beauty throughout the seasons. Consider planting Prunus c Crimson Pointe alongside other spring-blooming plants like lilac or Eastern Redbud for a vibrant display in your outdoor space.

### Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining soil

Water: Moderate Watering

Hardiness Zone(s): Zone 4-7

### Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Susceptible to aphids and cherry leaf spot

### Additional Information

Special Features: Showy pink flowers in spring  
Common Uses: Ornamental tree in gardens or landscapes
