

Plant Information

Common Name: Cushion spurge
Scientific Name: Euphorbia polychroma
Plant Type: Perennial

Physical Characteristics

Height/Spread: 30-45 cm tall, 30-45 cm wide
Growth Rate: Moderate
Flower Color(s): Yellow
Foliage Color(s): Dark green, turning to red in fall
Bloom Time: Spring

Plant Description

Euphorbia polychroma, also known as cushion spurge, is a stunning perennial plant that adds pops of yellow color to any garden. With its dark green foliage that turns red in the fall, this low-maintenance plant is perfect for borders, rock gardens, or as a mass planting. It requires minimal watering and is drought-tolerant, making it a great choice for Canadian gardens. Deer-resistant and pest/disease resistant, Euphorbia polychroma is a reliable addition to any landscape. Consider planting it alongside sedum, salvia, or geraniums for a beautiful and cohesive look.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-draining, loamy soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zones 3-5

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Generally pest and disease resistant

Additional Information

Special Features: Drought-tolerant, deer-resistant
Common Uses: Border plant, rock gardens, mass plantings
