

Plant Information

Common Name: Dappled Willow
Scientific Name: *Salix integra* 'Hakuro Nishiki'
Plant Type: Shrub

Physical Characteristics

Height/Spread: 2-3 meters tall and wide
Growth Rate: Fast
Flower Color(s): Inconspicuous
Foliage Color(s): Variegated pink, white, and green
Bloom Time: Spring

Plant Description

Salix integra 'Hakuro Nishiki' is a popular shrub known for its striking variegated foliage, adding color and interest to any garden or landscape. This fast-growing dappled willow features a mix of pink, white, and green leaves that stand out in spring and summer. It thrives in moist, well-draining soil and can tolerate drought once established. Perfect for creating hedges or borders, this low-maintenance shrub is a versatile addition to any outdoor space. Partner it with Forsythia, Lilac, or Spirea for a beautifully coordinated garden display.

Optimal Growing Requirements

Sun: Full sun to part shade

Soil: Moist, well-draining soil

Water: Moderate watering

Hardiness Zone(s): Zones 4-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to aphids and powdery mildew

Additional Information

Special Features: Drought-tolerant
Common Uses: Ideal for hedges or borders

Notes
