

Plant Information

Common Name: Dee Lish
Scientific Name: *Impatiens walleriana*
Plant Type: Annuals

Physical Characteristics

Height/Spread: 15-30 cm height, 20-25 cm spread
Growth Rate: Fast
Flower Color(s): Various shades of pink, red, orange, white, and purple
Foliage Color(s): Green
Bloom Time: Summer to fall

Plant Description

Dee Lish, also known as *Impatiens walleriana*, is a fast-growing annual plant that produces vibrant flowers in shades of pink, red, orange, white, and purple. It thrives in partially shaded areas with high watering needs. With its low maintenance requirements and drought tolerance, Dee Lish is a popular choice for borders, containers, and hanging baskets, attracting butterflies with its colorful blooms. This versatile plant is perfect for adding a pop of color to any garden or landscape design, especially when paired with companions like begonias, ferns, and other *impatiens walleriana* varieties.

Optimal Growing Requirements

Sun: Part Shade to Shade

Soil: Moist, well-drained

Water: High Watering

Hardiness Zone(s): Zone 10-12

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to aphids and spider mites

Additional Information

Special Features: Drought-tolerant, attracts butterflies
Common Uses: Ideal for borders, containers, and hanging baskets
