

Plant Information

Common Name: Delphinium Cobalt Dreams
Scientific Name: Delphinium elatum 'Cobalt Dreams'
Plant Type: Perennials

Physical Characteristics

Height/Spread: 1-1.2 meters tall, 0.5-0.6 meters wide
Growth Rate: Moderate
Flower Color(s): Cobalt blue with white centers
Foliage Color(s): Green
Bloom Time: Late Spring to Early Summer

Plant Description

Delphinium Cobalt Dreams is an eye-catching perennial known for its tall spikes of cobalt blue flowers with white centers. This variety blooms in late spring to early summer and attracts butterflies and hummingbirds to the garden. With its moderate growth rate and moderate water requirements, this plant thrives in full sun and well-drained soil. Delphinium Cobalt Dreams is a great addition to borders, containers, and cut flower arrangements, making it a versatile and beautiful choice for Canadian gardens. Planting it alongside companions like Echinacea and Rudbeckia can enhance its beauty and overall appeal in landscaping projects.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zones 3-7

Maintenance & Care

Maintenance Level: Moderate
Potential Pests & Diseases: Susceptible to powdery mildew, aphids, and slugs

Additional Information

Special Features: Attracts butterflies and hummingbirds
Common Uses: Borders, containers, and cut flowers
