

Plant Information

Common Name: Delphinium PG Mix
Scientific Name: Delphinium elatum
Plant Type: Perennials

Physical Characteristics

Height/Spread: 1-1.5 meters tall and 0.5-0.75 meters wide
Growth Rate: Moderate
Flower Color(s): Mix of various colors including blue, purple, pink, and white
Foliage Color(s): Green
Bloom Time: Late Spring to Early Summer

Plant Description

Delphinium PG Mix is a stunning perennial plant that produces tall spikes of colorful blooms in late spring to early summer. Its mix of blue, purple, pink, and white flowers adds a pop of color to any garden. With its moderate growth rate and moderate water needs, this plant is a great choice for gardeners looking to add height and visual interest to their landscaping. Delphinium PG Mix is also a favorite of pollinators like butterflies and hummingbirds, making it a valuable addition to any garden ecosystem. Plant alongside roses, lilies, salvias, or verbenas for a beautiful display of complementary colors and shapes.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-7

Maintenance & Care

Maintenance Level: Moderate
Potential Pests & Diseases: Susceptible to aphids, leafhoppers, and powdery mildew

Additional Information

Special Features: Attracts butterflies and hummingbirds
Common Uses: Border plant, cut flowers
