

Plant Information

Common Name: Dian Barbarini Purple Picot
Scientific Name: Dianthus barbatus Barbarini Purple Picotee
Plant Type: Perennials

Physical Characteristics

Height/Spread: 30-40 cm in height, 20-30 cm spread
Growth Rate: Moderate
Flower Color(s): Purple with white edges
Foliage Color(s): Green
Bloom Time: Late Spring to Early Summer

Plant Description

Dian Barbarini Purple Picot, also known as Dianthus barbatus Barbarini Purple Picotee, is a charming perennial plant with purple flowers edged in white, blooming in late spring to early summer. It thrives in full sun and well-drained soil, requiring low to moderate watering. With a moderate growth rate and low maintenance level, this plant is a great addition to borders, containers, or cutting gardens. Its fragrant flowers attract butterflies, making it a lovely choice for any garden. Pair it with companions like salvia, lavender, or ornamental grasses for a beautiful and colorful landscape.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zone 3-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, spider mites, crown rot

Additional Information

Special Features: Fragrant flowers, attracts butterflies
