

## Plant Information

Common Name: Dwarf Flowering Almond

Scientific Name: Prunus t Multiplex

Plant Type: Shrub

## Physical Characteristics

Height/Spread: 1-1.5 meters in height, 1-1.5 meters in spread

Growth Rate: Moderate

Flower Color(s): Pink

Foliage Color(s): Green

Bloom Time: Spring

## Plant Description

Prunus t Multiplex, commonly known as Dwarf Flowering Almond, is a beautiful shrub that produces delicate pink flowers in the spring. This moderate-growing plant thrives in full sun and well-draining soil, making it a great addition to borders or containers in the garden. Its fragrant flowers attract pollinators, adding life and color to the landscape. With low maintenance requirements and a hardiness zone of 4-8, the Dwarf Flowering Almond is a versatile and attractive plant for Canadian gardens. Plant it alongside companions like Forsythia, Spiraea, or Hydrangea for a visually appealing and harmonious garden design.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 4-8

## Maintenance & Care

Maintenance Level: Low

Potential Pests & Diseases: Aphids, spider mites

## Additional Information

Special Features: Fragrant flowers, attracts pollinators

Common Uses: Border plant, container plant
