

Plant Information

Common Name: Emerald Queen Maple
Scientific Name: *Acer platanoides* 'Emerald Queen'
Plant Type: Tree

Physical Characteristics

Height/Spread: 15 meters tall and 10 meters wide
Growth Rate: Moderate
Flower Color(s): Yellow-green
Foliage Color(s): Rich green
Bloom Time: Spring

Plant Description

Acer platanoides 'Emerald Queen', commonly known as the Emerald Queen Maple, is a stunning tree with a moderate growth rate and a beautiful, dense canopy. It features rich green leaves and yellow-green flowers in the spring, adding a touch of elegance to any landscape. With a low maintenance level and moderate water needs, this tree is an excellent choice for gardeners looking to add a focal point to their outdoor space. Additionally, its hardiness in zones 3-7 makes it a versatile option for various climates in Canada. Consider planting it alongside hostas or bleeding heart for a striking garden display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zones 3-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Can be susceptible to aphids and verticillium wilt

Additional Information

Special Features: Beautiful, dense canopy with vibrant foliage
Common Uses: Shade tree, focal point in the landscape
