

## Plant Information

Common Name: English Ivy  
Scientific Name: Hedera helix  
Plant Type: Vine

## Physical Characteristics

Height/Spread: 2-30 meters (height) and 1-3 meters (spread)  
Growth Rate: Fast  
Flower Color(s): Greenish-white  
Foliage Color(s): Dark green  
Bloom Time: Fall

## Plant Description

Hedera helix, commonly known as English Ivy, is a fast-growing vine with dark green foliage and greenish-white flowers that bloom in the fall. This evergreen plant is a great choice for ground cover, climbing up walls or trees, and providing erosion control. English Ivy prefers part to full shade and moderate watering. It is low-maintenance and attracts birds while purifying the air. Be aware of common pests like aphids and spider mites, as well as diseases like bacterial leaf spot. Consider planting English Ivy alongside hostas, ferns, or creeping thyme for a beautiful and diverse landscape.

## Optimal Growing Requirements

Sun: Part Shade to Full Shade

Soil: Moist, well-draining soil

Water: Moderate watering

Hardiness Zone(s): Zone 6-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Aphids, spider mites, bacterial leaf spot

## Additional Information

Special Features: Evergreen, air-purifying, attracts birds  
Common Uses: Ground cover, climbing vine, erosion control
