

Plant Information

Common Name: Euonymus Purple Creeper
Scientific Name: *Euonymus fortunei* 'Coloratus'
Plant Type: Ground Covers

Physical Characteristics

Height/Spread: 0.3-0.6 meters in height, 1-1.5 meters in spread
Growth Rate: Moderate
Flower Color(s): Inconspicuous small greenish flowers
Foliage Color(s): Deep purple
Bloom Time: Spring

Plant Description

Euonymus Purple Creeper, also known as *Euonymus fortunei* 'Coloratus', is a low-growing ground cover plant with stunning deep purple foliage. This hardy plant is drought-tolerant and deer-resistant, making it an excellent choice for low-maintenance landscapes. In spring, it produces inconspicuous greenish flowers that add a subtle touch of beauty to any garden. Euonymus Purple Creeper thrives in full sun to part shade and prefers well-draining, fertile soil. With its moderate growth rate and low maintenance requirements, this plant is perfect for adding color and texture to borders, rock gardens, or as a ground cover to control erosion.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zones 4-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Can be affected by scale insects and powdery mildew

Additional Information

Special Features: Drought-tolerant, deer-resistant
Common Uses: Ground cover, erosion control
