

Plant Information

Common Name: Euonymus fortunei
Scientific Name: Euonymus fortunei
Plant Type: Shrubs

Physical Characteristics

Height/Spread: 0.5-1.5 meters in height, 1-2 meters in spread
Growth Rate: Moderate
Flower Color(s): Greenish-white
Foliage Color(s): Green
Bloom Time: Spring

Plant Description

Euonymus fortunei, commonly known as wintercreeper, is a versatile evergreen shrub that is popular in Canadian landscapes. With its dense foliage and low maintenance requirements, it serves as an excellent ground cover or border plant. This plant is prized for its ability to thrive in various sunlight conditions and its resilience to drought. Its green leaves and greenish-white flowers add a charming touch to any garden. Additionally, Euonymus fortunei is deer-resistant, making it a great choice for areas with wildlife presence. Pair it with hostas or ferns for a visually appealing garden display.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-draining soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Euonymus scale, powdery mildew

Additional Information

Special Features: Drought-tolerant, deer-resistant
Common Uses: Ground cover, border plant
