

## Plant Information

Common Name: Flowering Raspberry

Scientific Name: *Rubus odoratus*

Plant Type: Shrubs

## Physical Characteristics

Height/Spread: 1.5-2 meters in height, 2-3 meters in spread

Growth Rate: Moderate

Flower Color(s): Pink

Foliage Color(s): Green

Bloom Time: Summer

## Plant Description

*Rubus odoratus*, commonly known as Flowering Raspberry, is a charming shrub with pink flowers that bloom in the summer. This plant has green foliage and a moderate growth rate, making it a great addition to any garden or landscape. Flowering Raspberry thrives in part shade with moderate watering, in well-drained, fertile soil. With its low maintenance level and attractiveness to butterflies and hummingbirds, Flowering Raspberry is a popular choice for border plantings and mass plantings. Pair it with plants like Astilbe, Hosta, and Japanese Forest Grass for a beautiful and harmonious garden display.

## Optimal Growing Requirements

Sun: Part Shade

Soil: Well-drained, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zones 2-6

## Maintenance & Care

Maintenance Level: Low

Potential Pests & Diseases: Susceptible to root rot and powdery mildew

## Additional Information

Special Features: Attracts butterflies and hummingbirds

Common Uses: Border plant, mass planting
