

Plant Information

Common Name: Forsythia Northern Gold
Scientific Name: Forsythia x intermedia 'Northern Gold'
Plant Type: Shrub

Physical Characteristics

Height/Spread: 1.5-2 meters tall and wide
Growth Rate: Moderate
Flower Color(s): Bright yellow
Foliage Color(s): Green
Bloom Time: Spring

Plant Description

Forsythia Northern Gold is a striking shrub that lights up the spring landscape with its masses of bright yellow flowers. This low-maintenance plant is an excellent choice for borders or as a focal point in the garden. It thrives in full sun to part shade and is drought-tolerant once established. Hardy in zones 4-7, Forsythia Northern Gold is a reliable early bloomer that attracts pollinators to the garden. Its vibrant flowers are a welcome sight after a long Canadian winter, making it a popular choice for adding color to the spring garden.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-drained, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zones 4-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Resistant to most pests and diseases

Additional Information

Special Features: Drought-tolerant, early blooming
Common Uses: Border plant, specimen shrub

Notes
