

Plant Information

Common Name: Green Velvet Boxwood
Scientific Name: Buxus 'Green Velvet'
Plant Type: Shrub

Physical Characteristics

Height/Spread: 1-1.5 meters tall and wide
Growth Rate: Slow to Moderate
Flower Color(s): Insignificant
Foliage Color(s): Dark green
Bloom Time: Spring

Plant Description

Buxus Green Velvet, also known as Green Velvet Boxwood, is a versatile shrub prized for its dense, dark green foliage and compact growth habit. This slow to moderate growing plant is perfect for creating hedges, borders, or topiaries in gardens and landscapes. With its low maintenance requirements and deer-resistant nature, Buxus Green Velvet is a popular choice for gardeners looking to add structure and texture to their outdoor spaces. This shrub thrives in well-drained, fertile soil and can tolerate a range of sunlight conditions, making it a versatile and attractive addition to any garden design.

Optimal Growing Requirements

Sun: Part Shade to Full Sun

Soil: Well-drained, fertile soil

Water: Moderate watering

Hardiness Zone(s): Zones 4-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Boxwood leaf miner, boxwood blight

Additional Information

Special Features: Compact growth habit, deer-resistant
Common Uses: Hedge, border plant, topiary

Notes
