Bloom Time: Late summer to early fall

Plant Description

Actaea s Hillside Black Beauty is a stunning perennial plant with dark purple foliage and deep purple flowers that bloom in late summer to early fall. It thrives in part to full shade and moist, rich soil. This low-maintenance plant is deer resistant and attracts butterflies, making it a great addition to shade gardens and woodland borders. Pair it with hostas, ferns, and coral bells for a beautiful and harmonious garden design.

Optimal Growing Requirements

Sun: Part shade to full shade

Soil: Moist, rich, well-draining soil

Water: Moderate watering

Hardiness Zone(s): Zones 4-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to powdery mildew

Additional Information

Special Features: Deer resistant, attracts butterflies
Common Uses: Shade gardens, woodland borders
