Plant Description

Alcea Chaters Queeny Purple is a stunning perennial plant that produces tall spikes of beautiful purple flowers during the summer months. With its moderate growth rate and low maintenance level, it is an excellent choice for adding vertical interest to garden borders or cottage gardens. This plant thrives in full sun and moderate watering conditions, making it a versatile and resilient addition to any landscape. Its attractive flowers are a magnet for pollinators like hummingbirds and butterflies, while its green foliage provides a lovely backdrop. Consider planting Alcea Chaters Queeny Purple alongside companions like lavender, Shasta daisies, or Russian sage for a harmonious and visually appealing garden display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to rust and spider mites

Additional Information

Special Features: Attracts hummingbirds and butterflies
