## Plant Description

*Alcea Chaters Magnificent Double Mix*, also known as Hollyhock, is a stunning perennial plant with large double flowers in various vibrant colors. Its tall spires make it a striking addition to any garden, attracting bees and butterflies while being resistant to deer. With its moderate growth rate and low maintenance needs, this plant thrives in full sun and moderate watering conditions. Hollyhock is perfect for adding height to borders or cottage gardens and pairs well with plants like Russian sage, lavender, and yarrow. Enjoy a summer full of beautiful blooms with this delightful *Alcea* variety.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, rich soil

Water: Moderate Watering

Hardiness Zone(s): Zones 3-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Susceptible to rust and powdery mildew

## Additional Information

Special Features: Attracts bees and butterflies, deer-resistant  
Common Uses: Ideal for borders, cottage gardens, and attracting pollinators
