

Plant Information

Common Name: Honey Roasted False Indigo

Scientific Name: Baptisia 'Honey Roasted'

Plant Type: Perennials

Physical Characteristics

Height/Spread: 0.9-1.2 meters tall, 0.6-0.9 meters wide

Growth Rate: Moderate

Flower Color(s): Yellow

Foliage Color(s): Green

Bloom Time: Late Spring to Early Summer

Plant Description

Baptisia 'Honey Roasted' is a stunning perennial known for its unique yellow flowers that bloom in late spring to early summer. With a moderate growth rate, this plant thrives in well-drained, loamy soil and can tolerate drought conditions. Its attractive green foliage and ability to attract butterflies and bees make it a popular choice for pollinator gardens. Low maintenance and pest resistant, Baptisia 'Honey Roasted' is an excellent addition to borders, mass plantings, or mixed perennial beds. Paired with companions like coneflowers and black-eyed susans, this false indigo adds a pop of color and charm to any landscape.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-drained, Loamy soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zone 4-8

Maintenance & Care

Maintenance Level: Low

Potential Pests & Diseases: Usually pest and disease resistant, but can be susceptible to root rot in poorly draining soil.

Additional Information

Special Features: Drought-tolerant, attracts butterflies and bees

Common Uses: Border plant, pollinator garden, mass planting
