

Plant Information

Common Name: Horseradish
Scientific Name: *Armoracia rusticana*
Plant Type: Perennial

Physical Characteristics

Height/Spread: 0.6-1.2 meters tall, up to 1 meter wide
Growth Rate: Moderate
Flower Color(s): White
Foliage Color(s): Green
Bloom Time: Spring

Plant Description

Horseradish (*Armoracia rusticana*) is a hardy perennial known for its pungent root, which is commonly used in culinary dishes. This plant grows best in well-drained soil and requires moderate watering. With its white flowers blooming in spring, horseradish adds visual interest to gardens. Its low maintenance level and unique flavor make it a popular choice for both ornamental and edible gardens. Plant horseradish alongside roses, lavender, or yarrow to create a visually appealing and aromatic garden space. This versatile plant is a great addition to any landscape in Canada.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Loamy, well-drained soil

Water: Moderate Watering

Hardiness Zone(s): Zones 3-5

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to aphids and flea beetles

Additional Information

Special Features: Drought-tolerant, deer-resistant
Common Uses: Culinary herb, ornamental plant
