

Plant Information

Common Name: Ice Ballet Milkweed
Scientific Name: *Asclepias i* Ice Ballet
Plant Type: Perennials

Physical Characteristics

Height/Spread: 60-90 cm tall, spreading up to 45 cm
Growth Rate: Moderate
Flower Color(s): White
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Asclepias i Ice Ballet, commonly known as Ice Ballet Milkweed, is a stunning perennial plant with white flowers that bloom in the summer. This milkweed variety is a favorite among butterflies and other pollinators, making it a perfect addition to butterfly gardens. Ice Ballet Milkweed thrives in full sun and well-drained sandy soil, requiring low to moderate watering. With a moderate growth rate and a height of 60-90 cm, this plant is low maintenance and adds a touch of elegance to borders, containers, and mixed plantings. Pair it with coneflowers, black-eyed susans, or liatris for a striking garden display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, sandy soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zones 2-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, spider mites

Additional Information

Special Features: Attracts butterflies and other pollinators
Common Uses: Butterfly gardens, borders, containers
