

## Plant Information

Common Name: Icecap  
Scientific Name: N/A (Trademarked cultivar name)  
Plant Type: Perennials

## Physical Characteristics

Height/Spread: 15-20 cm tall, spreads up to 30 cm  
Growth Rate: Moderate  
Flower Color(s): White  
Foliage Color(s): Green  
Bloom Time: Spring to early summer

## Plant Description

Icecap is a charming perennial plant that forms a dense mat of green foliage adorned with delicate white flowers in spring to early summer. With its moderate growth rate and low maintenance needs, this plant is a perfect addition to rock gardens, borders, or used as a ground cover. Its drought-tolerant nature and resistance to pests make it a reliable choice for Canadian gardens. Pair Icecap with other low-growing plants like Sedum and Creeping Thyme for a stunning display in your landscaping.

## Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-5

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: No significant pests or diseases

## Additional Information

Special Features: Drought-tolerant, deer-resistant  
Common Uses: Ground cover, rock gardens, borders
