

Plant Information

Common Name: Kodiak Red Bush Honeysuckle
Scientific Name: Diervilla rivularis Kodiak Red
Plant Type: Shrub

Physical Characteristics

Height/Spread: 1-1.5 meters tall and wide
Growth Rate: Moderate
Flower Color(s): Yellow-orange
Foliage Color(s): Reddish-purple
Bloom Time: Summer

Plant Description

Diervilla r Kodiak Red, also known as Kodiak Red Bush Honeysuckle, is a stunning shrub with reddish-purple foliage and yellow-orange flowers that bloom in the summer. This moderate-growing plant thrives in full sun to part shade and requires moderate watering. It is drought-tolerant and attracts pollinators to the garden. With its low maintenance needs and resistance to pests and diseases, Diervilla r Kodiak Red is an excellent choice for borders, mass plantings, or erosion control. Pair it with companions like Russian Sage and Dwarf Fothergilla for a beautiful and vibrant garden display.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Moist, well-draining soil

Water: Moderate Watering

Hardiness Zone(s): Zones 3-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Generally pest and disease resistant

Additional Information

Special Features: Drought-tolerant, attracts pollinators
Common Uses: Border plant, mass planting, erosion control

Notes
