

Plant Information

Common Name: Leonard Messil Magnolia
Scientific Name: Magnolia x loebneri 'Leonard Messil'
Plant Type: Tree

Physical Characteristics

Height/Spread: 4-6 meters tall, 3-4 meters spread
Growth Rate: Moderate
Flower Color(s): Pink and white
Foliage Color(s): Dark green
Bloom Time: Spring

Plant Description

Magnolia Leonard Messil is a stunning tree known for its beautiful pink and white flowers that bloom in spring. Its dark green foliage adds to its beauty, making it a popular choice for gardens and landscapes. With a moderate growth rate and low maintenance requirements, this tree is a great addition to any garden. It is best suited for well-drained soil and can tolerate both full sun and part shade. The fragrant flowers attract pollinators, making it not only visually appealing but also beneficial for the ecosystem. Plant alongside Rhododendrons, Azaleas, or Hostas for a stunning display in your garden.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-drained, Sandy Loam

Water: Moderate Watering

Hardiness Zone(s): Zones 4-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Few pests or diseases, but can be susceptible to scale insects.

Additional Information

Special Features: Fragrant flowers, attracts pollinators
Common Uses: Specimen tree, focal point in landscape
